**Subject:** RE: [External] 2020-10-28 MEH-MH Abandonment Order plan

Good afternoon [REDACTED]

Timescales are extremely difficult to predict especially when the process now moves out of the control of the Division.

This week will see the formal submission of the remodified abandonment order, however HQ have been aware of this for some weeks and have been preparing for its publication.

The letter has been prepared for the landowners and reprographics unit is primed to print, address and print however we await confirmation of publication details from HQ before we can get letters dated and printed. The re-modified order will be published in local papers for two weeks then there is the period of 30 days objection/support period which commences on the final day of the newspaper publication.

At this point in time and given the fact Christmas is just around the corner I would estimate the modified draft order will be published early January.

Hopefully sooner however that now depends on HQ although they have been informed of the importance of this order.

Regards.

**Subject:** RE: [External] 2020-10-28 MEH-MH Abandonment Order plan

[REDACTED]

I have all the required paperwork with the Divisional manager for signing. After that [REDACTED] will forward to HQ for processing. I have attached the map for information. The eastern & western ends now coincide with Dalradian fence line for information

One of my Business Support staff has been working on a spreadsheet for the names and addresses of objectors, so that should be finished within a week at the most.

[REDACTED]

can you advise on the timescales involved with the processes HQ & Division have to undertake, and likely publication date of the modified draft Order?

regards

Hi [REDACTED]

Would you be able to let me know where we are with the Abandonment please including timescales if possible.

Regards

Hi [REDACTED]

Please see attached, I have Xref in the sections of fence line in yellow which relate to the abandonment.

Hope this helps, if you need anything else let me know.

Regards

[REDACTED]

Is this plan (Drg 6 REV A) from the [Planning Portal](#) is the most up to date in terms of the Dalradian fenceline? Could you forward the fenceline on autocad so that [REDACTED] can use it to ensure we are using the same start and finish points for the abandonment extents?

I will email everybody when he has done this, with the new abandonment plan, to set out where we are and what we are doing re the plan and the Order, just so that we are all clear.

regards

**Subject:** RE: [External] 2020-10-28 MEH-MH Abandonment Order plan

Hi [REDACTED]

Thank you, few things worth noting / checking please.

- 1 Can you check the scale when printed, I'm not getting 1:5,000 when printing at A3 as stated on the drawing.
- 2 Happy to stick with the original length and area.
- 3 In the title block you are using it asks for Land area and Road Bed Area then Total Area, do you need to complete both then have the total of 0.617ha?
- 4 I notice a slight difference in your DfI Roads drawing relating to the location of the east stop up point. On the left below is the HD location, on the right is Roads location, just wondering is there a reason for this? Our location on the left is at the scheme fence line. Same at the west side there is a slight difference at the stopped up location when comparing Roads 2016 to draft 2020.

Kind regards

Hi [REDACTED]

Actual measurement I'm getting 1,113m length and 5,528m<sup>2</sup> area.

I see from the original Abandonment the length was 1,118m and 6,170m<sup>2</sup> area. Roads done their own area and length in your cad work for the previous submission so I was proposing to keep with same as previous 2016 submission as where the centre of the road is and the actual boundary from verge to verge is subjective.

I'm free if you would like to chat about this, it will be critical we get this correct. I can look at the areas again or if your engineer wants to send me the original 2016 area where the 6,170m came from I will check it.

Regards

[REDACTED]

Apologies for the delay in this. Can you confirm

1. The length of road to be abandoned; and
2. if the area of land to be abandoned is correct?

Thank you

regards
