Jacklyn,

Ref; TradeDraft Consent Conditions for Application: TC40/12_2

The nature and location of the proposed discharge is noted. The Loughs Agency is the lead body for provision of advice regarding impacts to salmonid and inland fisheries within the watersheds of Lough Foyle and Carlingford Lough. Consequently, said agency should be consulted in relation to this application. DCAL will continue to provide fisheries advice for those areas outside of the catchments of Foyle and Carlingford Loughs.

Faithfully,

[REDACTED]
Fisheries Operations and Technical Support
DCAL
